

# WHO IS ALEUT WORLD SOLUTIONS

## ALEUT WORLD SOLUTIONS

Aleut World Solutions (AWS) integrates the capabilities and resources of three established small businesses familiar with government contracting, partnered to offer comprehensive remediation services to the Department of Defense and its contractors.

### CAPABILITIES

- Environmental Remediation
  - Underground Storage Tanks
- Waste Sorting, Segregation, Treatment, and Processing
- Disposal Pathway Optimization; Cost, Schedule, Risk Analysis
- Treatment Technology and Packaging Evaluation and Development
- Onsite/Offsite Waste Processing, Packaging, and Shipment Manifesting
- Marking, Labeling, and Placarding Shipments
- Specialty Equipment and Packaging for Oversize Components
- Construction (General, Environmental and Specialty Welding)
- Highway, Rail, and Air Transportation
- Classified and Sensitive Transport
- Transport Security Tracking
- Technical and Program Management Support
- Regulatory; State, Local, and Federal Compliance
- Environmental Assessments & Regulatory Audits
- Information Management
- System Improvement and Strategic Planning
- Training, Development, Implementation, and Management
- Waste Certification
- Unexploded Ordnance (UXO/ MEC)
- Emergency Preparedness/ Response Training

Rock Island Arsenal commended NWT's performance providing decommissioning activities in terms of safety practices and compliance with work plans and sample analysis, and offered a note of appreciation on a "job well done" at Ravenna AAP. A letter was received from NRC Region III after auditing Ravenna stating there were 0 findings.

Bering Sea Environmental (BSEn), an

**A**laskan Native Corporation wholly owned by the Aleut Natives of St. Paul Island in the Central Bering Sea. BSEn brings experience in land management, environmental services, and remote site logistics and construction in sub-arctic marine environments. BSEn is a proven remediation contractor with a record for bringing efficiency, safety, quality control, security, and timeliness to each effort.

New

**W**orld Environmental, Inc., dba New World Technology (NWE)

A Native American Owned company that specializes in radioactive remediation, identification, characterization, decontamination, waste management, and unexploded ordnance range decontamination services. NWT has provided site decommissioning and remediation, characterization, and waste management on a variety of projects for clients such as the Department of the Navy, Army Field Support Command Rock Island, US Army Sustainment Command, US Air Force, and the U.S. Department of Energy (DOE).

Visionary

**S**olutions, LLC (VS), an 8(a) Certified Small Disadvantaged Business was founded with the goal of providing a comprehensive package for waste management services. VS specializes in providing technical and management support in waste transportation and logistics such as: environmental management of specialty and orphan waste, profiling and packaging, route selection, manifesting, waste technology, and disposition planning. VS is a DOT compliant motor carrier providing transportation services, and has an excellent safety rating. Our mission is to provide safe and compliant transportation to our clients at a cost effective rate using quality equipment and trained professionals.

Visionary Solutions Large Campaigns Summary (2004-2008)			
DOE Campaigns	Average Shipments per Week	Max. Shipments per Week	Avg. Mileage Traveled
WIPP	7	13	34,251.5 mo
Fernald	20	96	41,536 wk
Portsmouth	20	20	20,306 wk
DUF <sub>6</sub>	48	90	51,471 wk
Total Shipments		7,634	
Total Avg. Mileage		10,581,398	

Projects Completed Safely, On-Time, and Within Budget!

# Large Business Capability/ Small Business Responsiveness

## Resources:

- Technical Support
- Licenses and Permits
- Field Equipment
- Transportation Resources
- Field Offices
- Past Performance

## We Are:

- Three proven and successful Small Businesses come together to enhance customer options.
- A melding of Bering Sea Environmental's field capabilities, VS's transportation capabilities, and NWT's science and field engineering capabilities.
- Large business capacity and capability, proven small business performance.

U.S. Army Sustainment Command (USA-AMC)  
1 Rock Island Arsenal,  
Rock Island, IL 61299-6500

AWS was recently awarded a five year, \$49.9M environmental remediation contract to support US Dept. of Defense efforts to provide environmental remediation support including MEC/UXO disposition, hazardous and non-hazardous characterization and removal and disposition of hazardous and radiologically contaminated materials. AWS maintains a NRC Radioactive Materials License, equipment and expertise to self-perform all project management activities necessary to return contaminated sites (FUSRAP, CERCLA, etc) to municipal authorities for beneficial reuse status. We provide specialty equipment, technical expertise and project management to support preliminary planning, operations, packaging and transport of site wastes to Government approved Treatment, Storage and Disposal Facilities (TSDFs).
